Waste Recycling & Collection

Bring Banks Usage:

The Council provides and manages 46 Bring Centres across the City and County and a total of 1,109 tonnes of recyclables were collected from our Bring Centres in the first half of 2022. This represents a 24% decrease on the same period last year and is mainly due to the lifting of all Covid restrictions. LIDL Loughboy (with 68 tonnes collected YTD), Newpark Shopping Centre (with 67 tonnes collected YTD) and Graiguenamanagh (49 tonnes collected YTD) are the busiest of the sites. Environment staff are continuing to work very closely with our service providers to ensure the collection service is in keeping with demand, especially around long weekends and holiday periods. Kilkenny County Council is also currently in the process of moving the Bring Bank location in the village of Johnstown.

Dunmore Recycling & Waste Disposal Centre:

A Mattress Amnesty Week was held on Monday 27th June to Saturday 2nd July, 2022 at both Dunmore and Granny Civic Amenity Sites. This Anti-Dumping Initiative was funded through our WERLA Southern Regional Office. It yielded 724 mattresses and was welcomed by the general public. Both sites had large number of customers throughout the week. Dunmore recorded one of its busiest weeks ever due to customers also bringing in other items along with their mattresses for the advertised event.

WEEE Ireland Collections

WEEE Ireland completed 5 Saturday collections in April and May. The 5 collection events resulted in over 55,000 kg of electrical household waste being collected for appropriate recycling.

Date	Location	Weight Kg
21/05/2022	Castlecomer	6,740
28/05/2022	Piltown	12,134
04/06/2022	Thomastown	13,464
11/06/2022	Johnstown	16,910
18/06/2022	Kilkenny	5,760

Kilkenny County Council would like to acknowledge the community support it received that promoted the collection events locally. The Environment Section in collaboration with WEEE Ireland and the Councils Communication Team will now promote the recycling centres which accept household electrical waste all year round which operate in the County. This is to ensure that the public are aware of their options when they need to recycle household electrical waste. These activities compliment the actions under the Litter Management Plan 2021-2023.

Litter Awareness

Leave No Trace Campaign

The Love This Place campaign aims to change behaviours outdoors by raising awareness of our impacts and what we can do to make a difference. The ethos behind the campaign is by leaving no trace and respecting our environment we can help to minimize our impact on the outdoors. Launched nationally on the 30th of May, Kilkenny County Council pledged to be a campaign supporter, by promoting the campaigns key messages. This activity is an action under the Litter Management Plan 2021-2023 and is being completed in collaboration with the Councils Communications Team.

On foot of the initial landowner and public engagement evenings on the emerging routes to connect both villages to the Greenway, the preferred route for each village was confirmed. A presentation of the route selection process and preferred route was given at the Piltown Municipal District June meeting. The Appropriate Assessment Screening for each preferred route will commence shortly.

Parks & Playgrounds

Tender documents are being prepared for a number of playground and amenity projects around the County. The Parks Department are assisting the local community of Freshford with the preparation of tender documents for the development of an outdoor activity hub, which includes a children's playground adjacent to the GAA pitch in the village. Funding has been approved under the Town and Village Renewal Scheme and Community & Cultural Facilities Capital Scheme. The scheme will provide an access road, car parking and outdoor activity equipment including play equipment aimed at children. The local community also intend to develop a sensory garden at the site also.

Woodstock Gardens

Early summer in the gardens has been busy. The Rose garden, terraces and Walled gardens have been the focus of much of the attention with topiary planting needing pruning to maintain the formal shapes typical of the Winter Garden. Also underway is the replanting of the walled garden herbaceous border and the removal of the box hedging which is unfortunately infested with box blight like so many box plants (*Buxus sempervirens*) in formal gardens all around Europe. New planting of herbaceous plants typical of the Victorian era will be planted to refresh the planting scheme

Aerial view of the Walled Garden, the herbaceous border follows the central axial path through the gardens connecting the Arboretum to the Flower Terrace

The Tea Rooms

The tea room was open seven days a week throughout the month of June offering a variety of gorgeous cakes and good coffee. Visitors can enjoy a cuppa in the beautiful surroundings and enjoy the outdoor terrace when the sun shines.

The Woodstock coffee truck, located near the carpark and tented picnic area, was also serving refreshments throughout the weekends in June and from mid-July our offering will increase to include fresh ice cream cones, 99's etc. with the completion of our new eagerly awaited ice cream parlour

PARKS & SPECIAL PROJECTS

A group of Rural Recreation Officers visited Woodstock Loop Walks in late June on a field trip organised by the Leader Partnerships in conjunction with the Dept of Rural and Community Development. The meeting was a great success with lunch provided for the group from all over Ireland in the Tea Rooms after a strenuous walk uphill from Inistioge village.

Local Biodiversity Action Fund

In conjunction with the Heritage Office, the Parks Section applied for funding under the Local Biodiversity Action Fund for invasive species control in both Silaire Wood and Woodstock Gardens. This builds on the actions set out in the management plans for invasive species prepared last year with assistance from the same fund. This year, €20,190 was awarded to Woodstock Gardens for the purchase of a flail to control invasive Laurel growth and to hire in contractors to assist in cutting and mulching the dominant shrub and €6,810 was awarded for Silaire Woods for the pulling of Himalayan Balsam.

The timing to pull the Himalayan Balsam is key as same needs to commence immediately prior to the plant flowering and going to seed. Himalayan Balsam is a significant issue on the River Barrow having totally colonised many sections of river bank.

Working Groups are beginning to gather in towns in Carlow and Kilkenny to 'Balsam bash' in an effort to control the plant. A co-ordinated approach is needed due to the prolific nature of the plant to set seed, thus, one section cannot be treated in isolation.

Balsam Bashing at Silaire Wood

On foot of the above funding and with the help of a great team of volunteers from the Graiguenamanagh Canoe Club a Himalayan Balsam bash was held in Silaire Wood recently.

Teams of approximately 20 people assisted each night on the 21st and 22nd of June to pull this invasive weed before it went to seed to prevent its spread both within the wood and further downstream.

National Virtual Records Treasury

We are delighted to have contributed records to the virtual reality Record Treasury, launched recently. No one alive today has ever stepped foot in the Record Treasury destroyed a century ago – but now you can re-enter in Virtual Reality. The Record Treasury held seven centuries of Irish history and was destroyed in the Battle of the Four Courts on 30 June 1922. See virtuallibrary.ie.

Cruinniú na nÓg

As part of the national Cruinniú na nÓg festival, we received funding from Creative Ireland to run a series of online Art workshops with Tina Mation, and some in-branch lego workshops in Thomastown and Ferrybank libraries on June 11th. This was further supplemented by purchase of lego materials for all of our libraries, to encourage creativity amongst young people.
